

Picasa 3 Exporting

Step By Step

Right click you desk top.

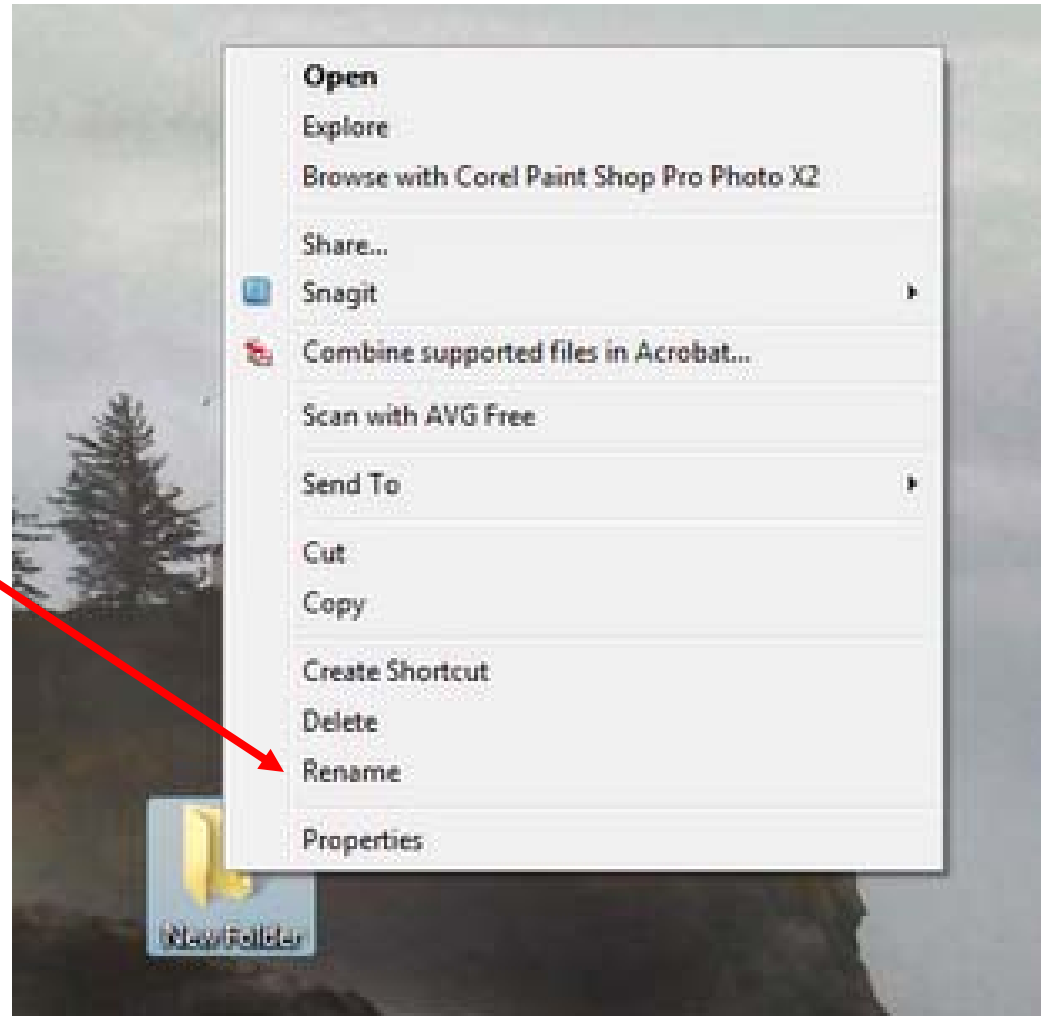

Click on folder

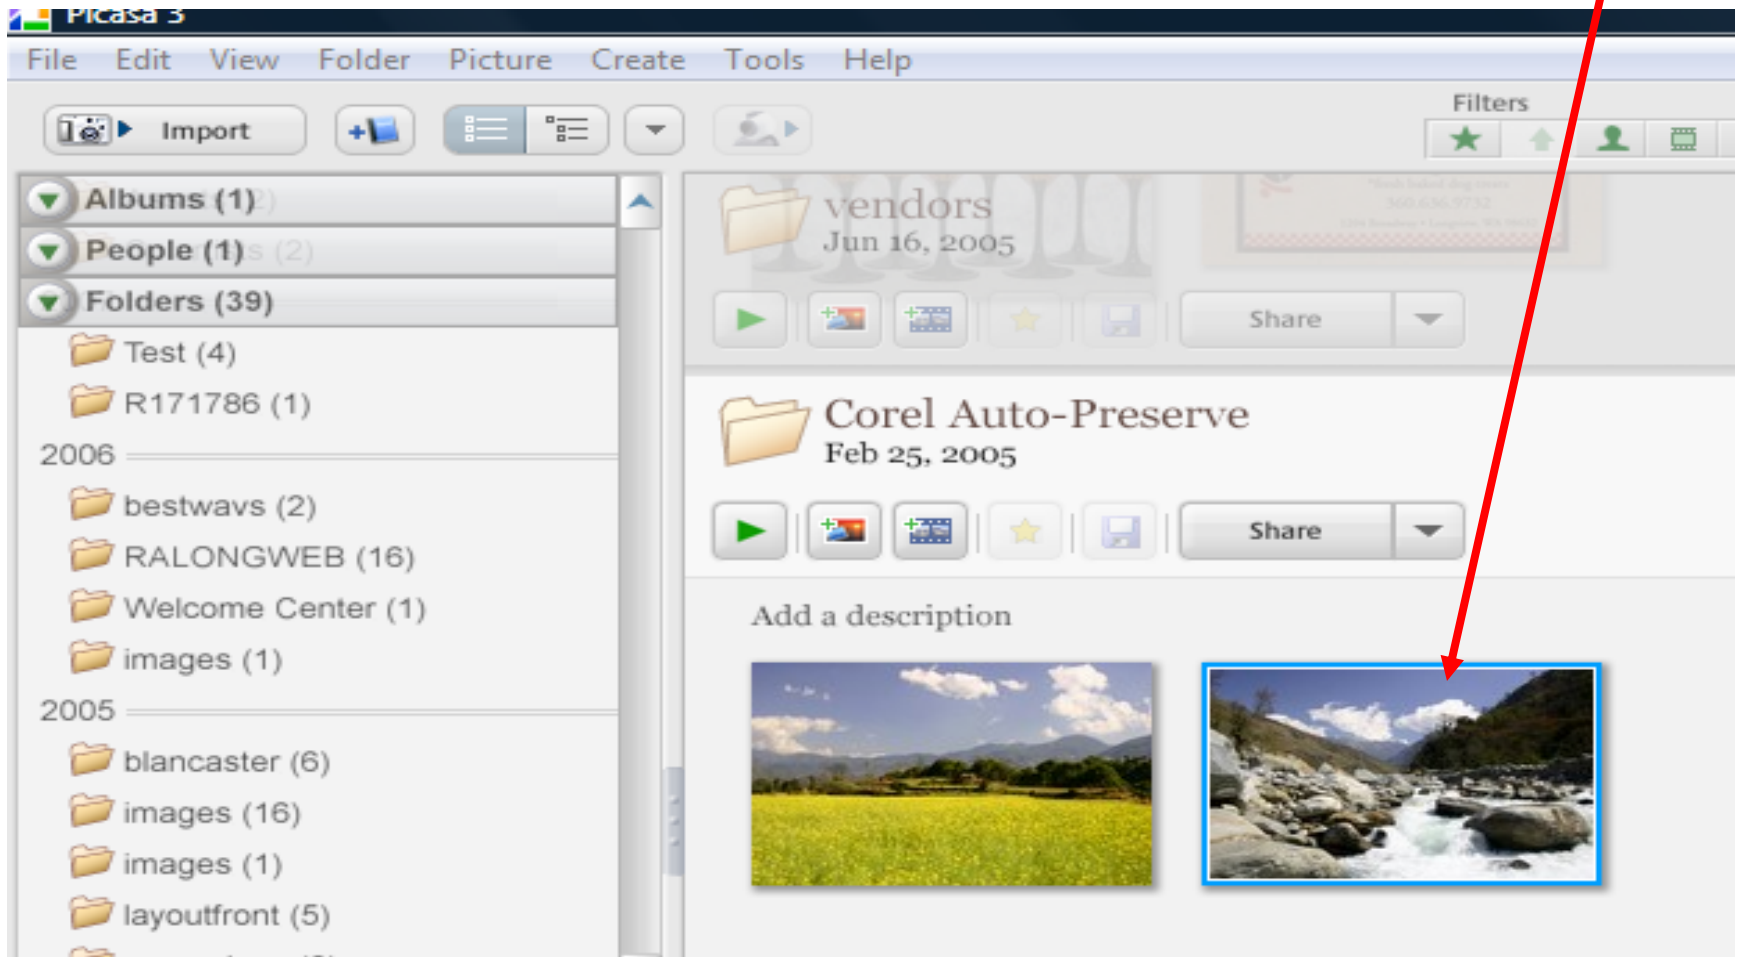

A new folder appears on your desktop with NEW FOLDER in blue type a name for this folder.

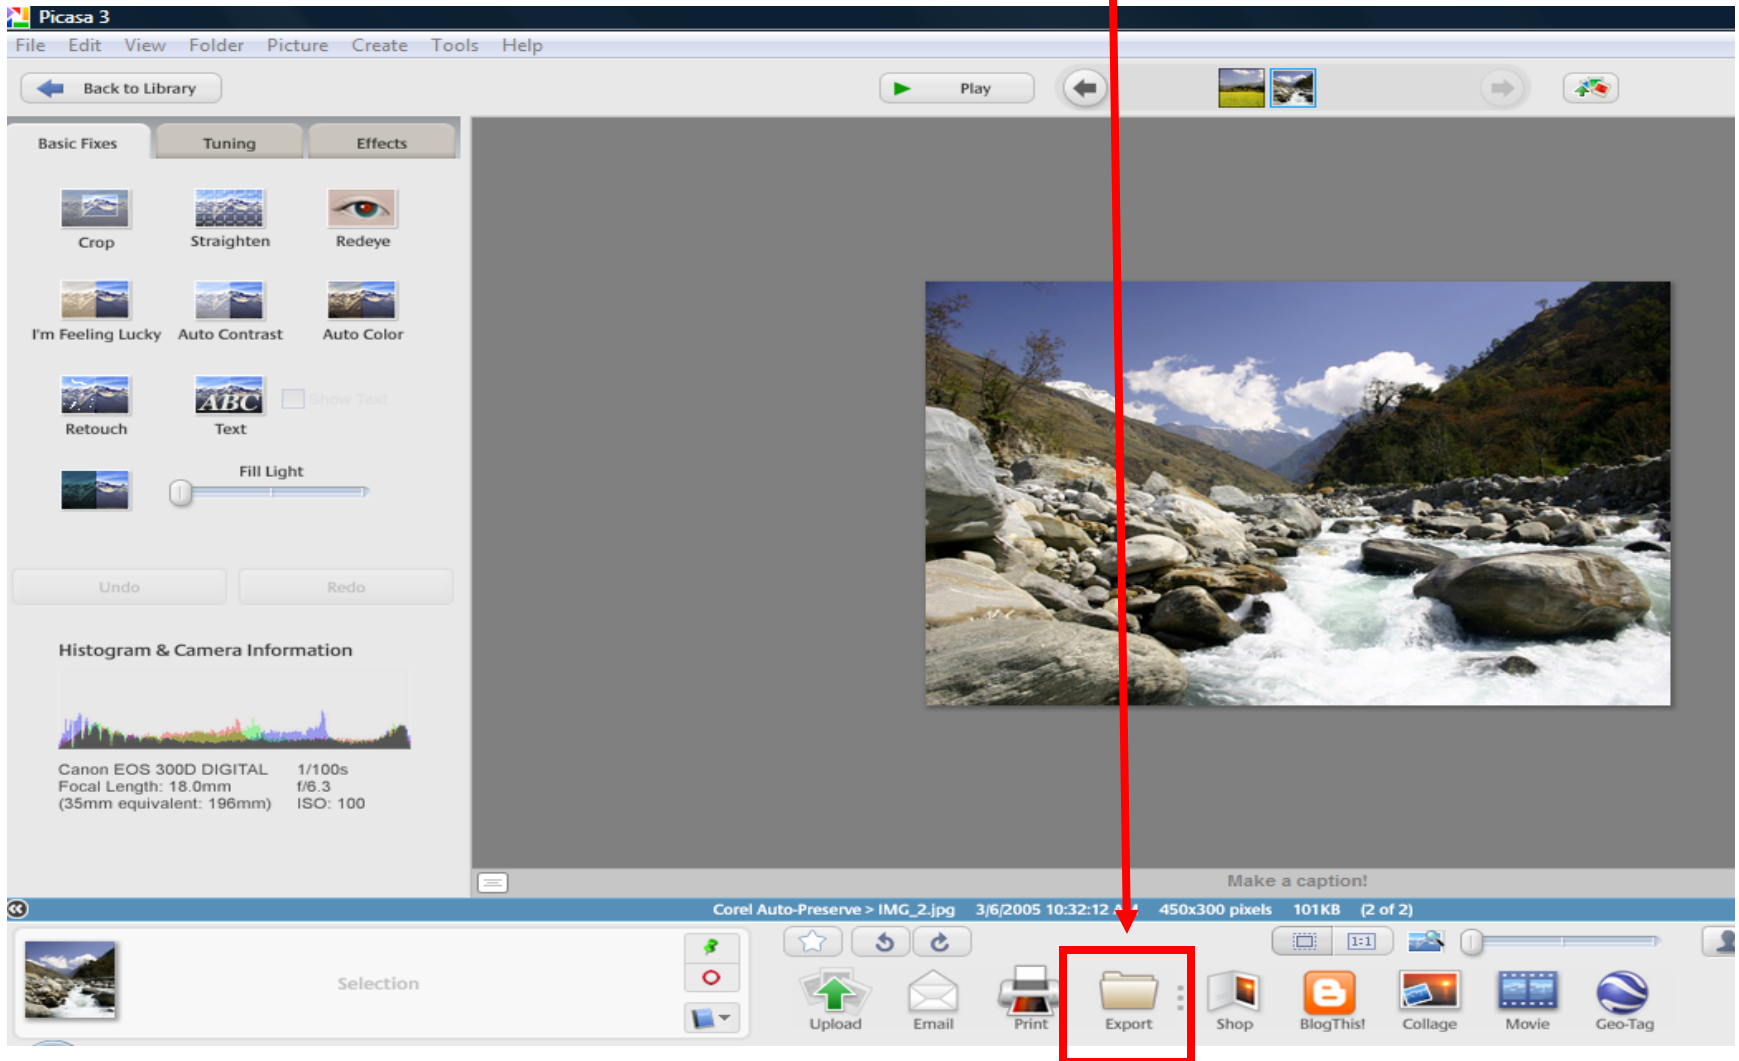

If new folder goes to white put mouse on it and right click then click rename.

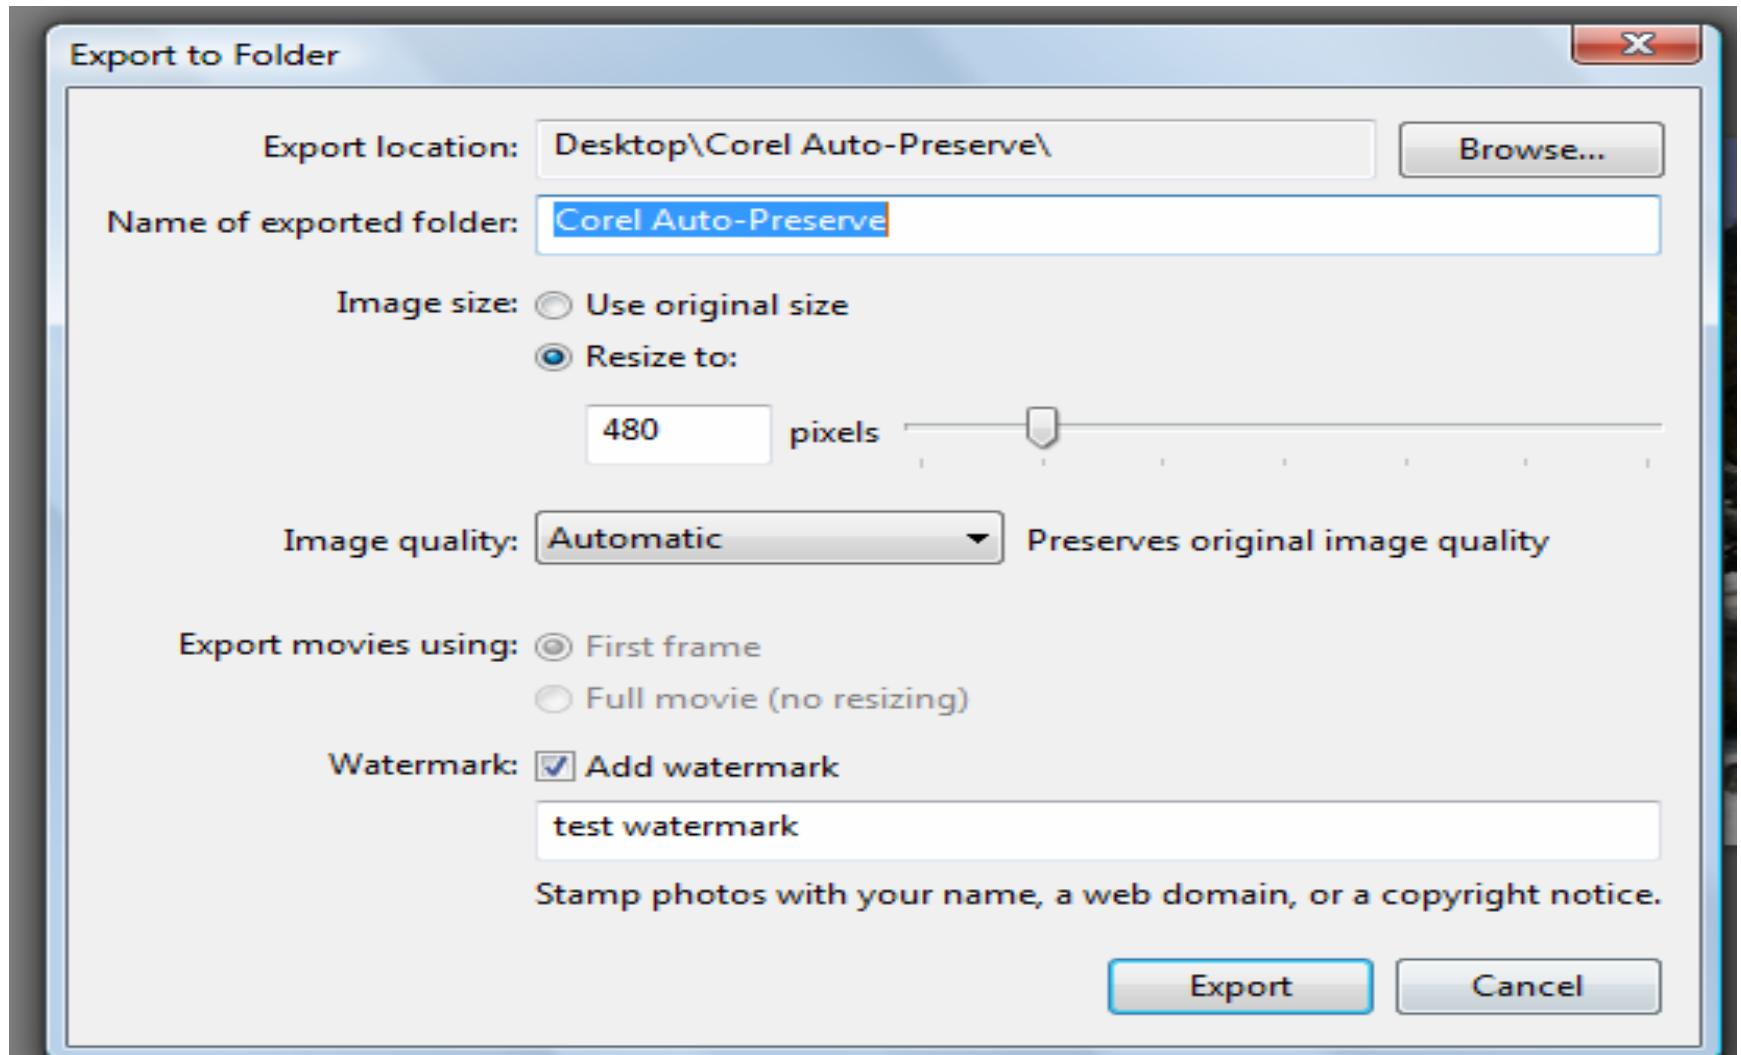

Open Picasa and click on the photo to be resized.

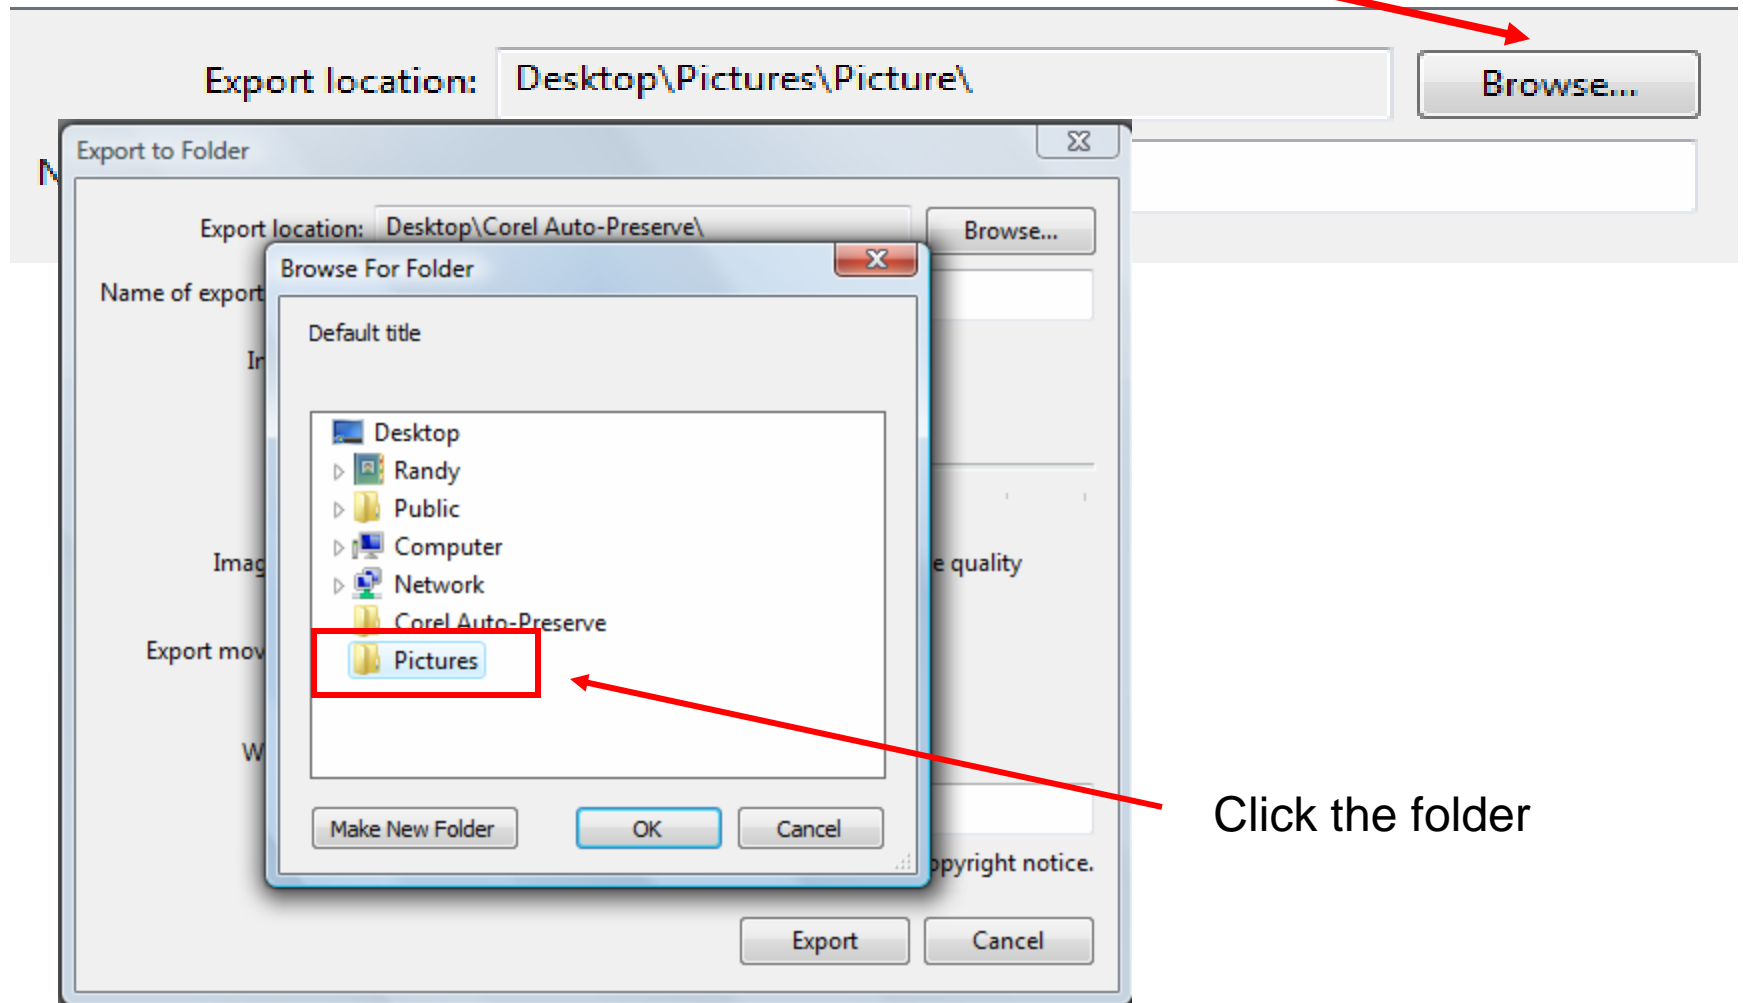

Click on Export

This window will open...

Click the Browse button and find the folder you made on your desktop.

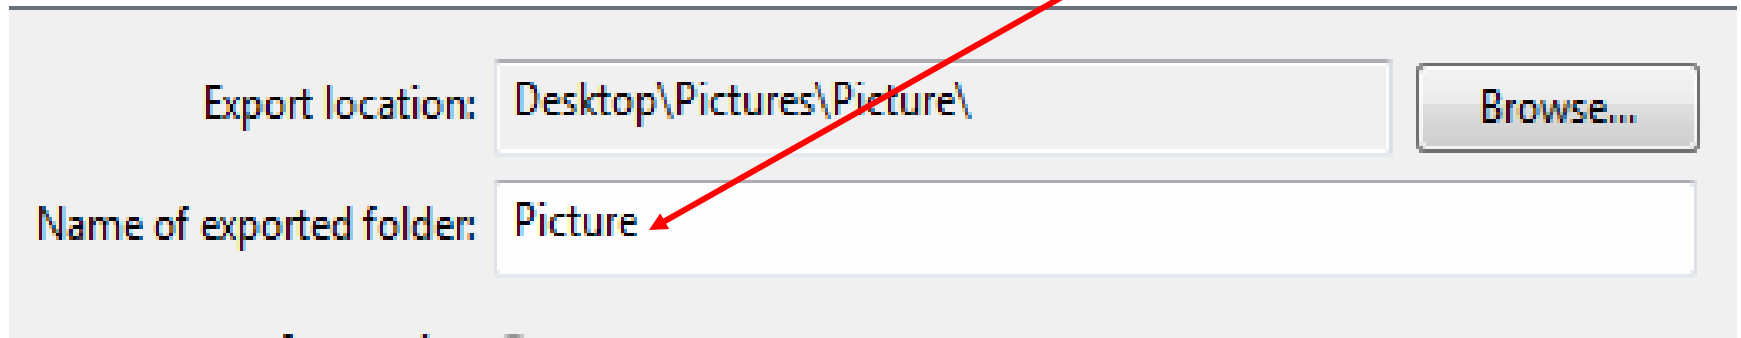

Click the folder

Type the name of folder

Export location: Desktop\Pictures\Picture\

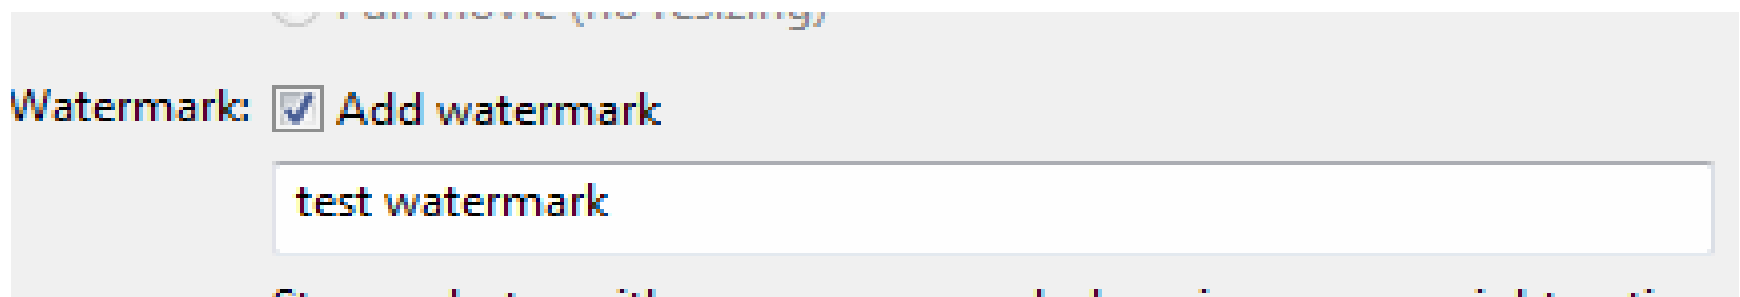

Name of exported folder:

If you want a watermark put a check in Box.

Then type what you want in the box. You can not remove the watermark once it's added, but your original will not be effected.

Watermark: Add watermark

Click Export and the file will open with your photo in it.
